

## Books to support our learning.

**Communication, Language & Literacy**

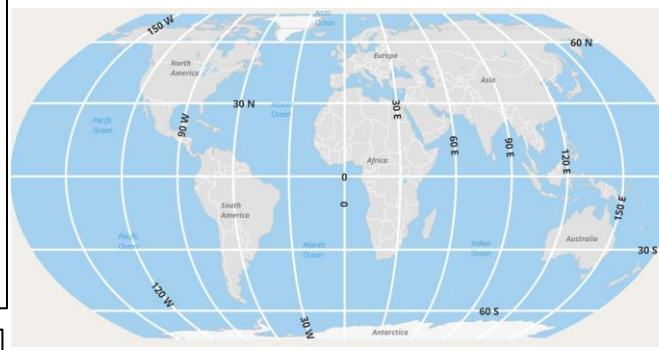

In literacy we will be learning how to become a successful journalist. We will explore different forms of presenting journalistic recounts e.g TV news, podcasts, investigations and newspapers. We will learn about the features of a good recount both orally and written and work to creating our own Barndale News Report.

**STEM****What is in our solar system?**

In science we will continue to explore our earth, moon solar system. We will create our own solar system in class, learn about the seasons and blast off our very own rocket. We will learn about what its like for an astronaut in space and look at previous and modern space travel as well as discover how the movement of the earth impacts time zones.

**PSHE****What do I want for my future?**

In PSHE we will be considering what we would like our future to look like. This will involve exploring jobs and job roles and understanding how money plays a role in peoples lives and careers. We will also consider how we can help those in need, e.g through charity work.

**Longitude, Latitude & Time Zones****Humanities****Where would you chose to travel?**

In our geography topic will learn about cartographers, how longitude and latitude can be used to locate places, the significance of longitude and latitude in relation to the seasons as well as how longitude and latitude affects how people live around the world. In RE we will be exploring how Muslims show a commitment to God.

**Therapeutic Input**

In class we will work through our targeted OT and SaLT plans. We will also have regular movement breaks and explore activities that keep us regulated.

**Numeracy & Problem Solving**

In numeracy, we will continue to build our calculation skills focusing on multiplication and division. We will explore how we can group and share objects, make arrays and recall multiplication and division facts. We will then use our knowledge to solve problems. In our learning, we will use TTRockStars online to support our learning.

**Computing****Could I be a game designer?**

In this unit we will learn about the world of gaming. We will design and make our own 3D maze game and assess the effectiveness of our game. We will also have an introduction to micro:bits.

**The Arts****How can I use colour to reflect nature?**

We will be exploring the element of colour in nature with a focus on painting. We will extend our knowledge of mixing primary and secondary colours to make tertiary colours. We use a range of tools to paint with an explore how paint and dyes can be made. In music, we will have keyboard lessons with our music tutor.

**Physical Education****What is parkour?**

In PE we will explore ways to move through a space safely including changes in direction, develop our balance, learn jump and land with control and accuracy, explore taking weight on our hands.
