

Books to support our learning.

Holes by Louis Sachar

# COMMANDO JOE'S

TT Rockstars

## BADGERS

### Communication, Language & Literacy

In Literacy, we will spend the short half term investigating instruction writing. Looking at the structural layout of instructions and the use of imperative verbs, we will write a set of instructions for how to not be the worst king ever....based on King John and the Magna Carta.  
In Guided Reading time, we will study the book of Holes by Louis Sachar.

### Knowledge and Understanding of the World

#### It's not the worst job in the world...is it?

In this unit, children will learn about some of the various jobs from history including those that had to be completed by children! We will compare the roles and come to a collective decision about what was the *worst job in history!*

### Maths & Problem Solving

In Maths, whilst some of us will be investigating measurements including length and perimeter, other will be looking at fractions, decimals and percentages.  
We continue to have Maths in our groups chosen to match our confidences in the subject.

### Science

#### Why do our bodies change shape?

Children will learn about the life cycle of a human being. They will compare the gestation period of humans and other animals and investigate the development of babies. They will learn about the changes experienced during puberty and why these occur and will also look at the changes that other animals experience

### RE

#### How significant is it for Christians to believe that God intended Jesus to die?

Throughout this enquiry the children look at the events of Holy Week (the week leading up to the death and resurrection of Jesus) to investigate the cause and effects of these events.

### Computing

#### How safe are you online?

We will learn how to describe ways that information about anyone online can be used by others to make judgments about an individual and why these may be incorrect. We will also recognise online bullying can be different to bullying in the physical world and can describe some of those differences.

### Enrichment & Ways to Wellbeing

In the Badgers, we will embrace the impact of a positive mental health. Every week, we will have our classroom nominations where the pupils vote for their own star of the week whilst telling their chosen person why they are special. We will use Stormbreak activities & Just Dance to have movement breaks to stimulate the body as well as the mind. We will complete the Daily Mile everyday.

### Physical Education

#### Anyone for Tennis?

In PE on Fridays, we will be using Alnwick Tennis club whilst we look to work on our hand to eye co-ordination in Tennis.  
We'll play fun games looking at developing net skills including forehand, backhand and volleys.

### Art & Design Technology

#### Who are we designing for?

This Felt Phone Cases unit will teach about how to write their own design criteria. They will design products with the user in mind thinking about aesthetics and functionality. Annotated designs will be used to communicate ideas as well as step by step plans.  
Children will learn how to make a paper template and how to sew a running stitch, backstitch, whip stitch and blanket stitch.
