Class: Dolphins	Barndale Learning Plan	Term: Autumn 1

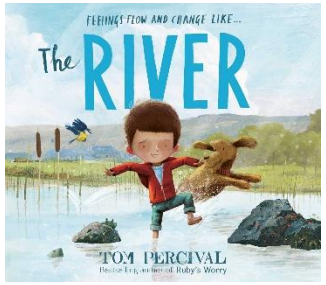

Books to support our learning.

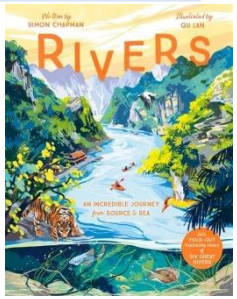

English & Literacy

In literacy we will go into our own individualised groups. Those doing NCFE English this year will be working on the alphabet and reading comprehension skills. Each day we will read to an adult, with a focus on understanding the text. Our guided reading book is Shackleton's Journey.

STEM

Are all life cycles the same?

In our biology topic we will explore living things and habitats. We will discover what makes something "living" and learn to classify living things based on their characteristics. We will work scientifically by taking part in experiments and making observations.

RE

How are sacred teachings and stories interpreted by Jews today?

In RE we will be exploring Judaism. We will learn why the shabbat at the Torah are important to Jewish people. We will also reflect on stories that are important to us.

PSHE, Life Skills & Careers

How can I build positive, healthy relationships?

In PSHE we will be reflecting on our qualities and interests to help build our sense of self and self-esteem. We will explore how relationships form online and consider the risks and benefits of these.

Rivers and Coasts

Humanities

Do rivers or coasts have the biggest impact on peoples lives?

In our geography topic we will look at how rivers and coasts change over time (both physical and human-made changes) and the impact of these changes on humans. We will learn about erosion and deposition and consider the impacts of climate change, flooding and pollution.

Enrichment & Therapeutic Input

This half term we will have enrichment and therapeutic opportunities to take part in cooking and lego therapy. We will also work on our tool kits and understanding what helps us with big feelings.

Maths

In maths we will begin our year by building our place value knowledge. We will work in our individualised groups toward our personal targets. We will work toward understanding the value of each digit, being able to order and compare numbers, and understand what parts make the whole number.

Computing & Digital Skills

How do we use device and handle information?

In computing we will be looking at networks. We will explore how devices connect together and the different between LAN and WAN. We will also be starting work toward our NCFE Digital Skills Qualification, starting with theme one: using devices and handling information.

Art & Music

How can I capture movement?

In Art we will be completing our "taking flight" topic, creating a range of artwork on birds. We will have a strong focus on print work. In Music we will be exploring music for screen and film. We will explore the impact of music on scenes and how tempo can impact tension. We will explore the work of foley artists.

Physical Education

What fundamental skills do we need for sport and fitness?

In PE this half term we will be working on our fundamental movement skills. We will take part in a range of games and activities to help improve our balance, agility and co-ordination.
